Only Rain Down the Drain!

Did you know... when rain or melting snow flows over the land, it picks up pollutants like trash, dog poop, pesticides, sediments, and oil from leaking cars, and carries it into our storm drains - which lead to the Schuylkill River.

Most of us within Berks, Chester, Montgomery, and Schuylkill Counties get our drinking water from the Schuylkill River. By keeping our land and our storm drains clean, we're helping to keep our drinking water clean.

- Clean up after your pet
- Do not litter
- Plant native trees, plants, and flowers
- Recycle and use reusable items, like water bottles, containers, and bags
- Use products with natural ingredients
- Volunteer at cleanups in your township or for an environmental organization.
